OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 21st August 1920.

Brief abstract of the special reports regarding the food situation for the week ending 21st August 1920.

Bangalore City.—During the week under report, 70 carts of ragi and 9 carts of paddy came into bazaar as against 106 carts of ragi and 19 carts of paddy in the previous week.

The price of ragi ranged from Rs. 85 to Rs. 92 per cart during the week, against Rs. 87 to Rs. 92 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The four Municipal Test Depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their depots.

Mysore City.—(Report not received.)

Bangalore District.—There were good showers all over this week. Many tanks have received a fair supply of water.

The raiyats are busily engaged in ploughing, sowing and weeding operations. In some parts of Dodballapur lands are prepared for sowing gram. The standing crops are in good condition.

Markets are fairly well supplied, but the prices continue to be high.

Ragi sold from 6¼ to 8 seers a rupee and local rice from 3½ to 4½ seers a rupee.

Burma rice is available in Government Depots and Co-operative Societies at 4½ seers a rupee.

Mysore District.—There is no difficulty about supplies of food grains anywhere.

There has been a little rain all over the district during the week. In Mandya and Malvalli the rain was good and ragi in those taluks is all the better for it.

Tumkur District.—During the week under report there has been a good rainfall throughout the district. Standing crops are in good condition. Sowings are going on briskly. Ragi has fallen in price from Rs. 92 a cart load to Rs. 82, while the price of paddy remains stationary.

Kolar District.—The rainfall during the week has been general throughout the district.

The raiyats are busily engaged in their agricultural operations.

The markets are fairly well supplied.

The demand for Burma rice is slack.

Hassan District.—There was a light fall of rain in some parts of the district during the week.

The markets were fairly well supplied with food grains. Standing crops such as *kar* paddy, paddy, ragi and sugar-cane are in a good condition.

Prices of food grains still continue to be high.

The prospects of the season are generally good for the present. More rain is urgently wanted in the Arsikere, Channarayapatna and Hole-Narsipur Taluks and maidan parts of Belur Taluk.

Shimoga District.—There has been no change in the food situation in the district during the week.

More rain is wanted in some parts of Shikarpur Taluk and Kumsi Sub-Taluk. The Amildar of Honnali Taluk reports that rain is badly wanted all over the taluk. Conditions in Shimoga Taluk are improving.

Prices continue to be high.

Kadur District.—Necessary food stuffs were available in all the markets in sufficient quantities, but there appears to be no tendency for their prices to go down.

Want of rain is reported to be felt in the maidan parts of the district.

Chitaldrug District.—There have been good showers during the week throughout the district, Jagalur recording the highest, *viz.*, 4·35 cents. The high winds have begun to abate and there is every indication of getting more rains next week.

The seasonal conditions are likely to improve. There has been no change in the prices of food grains.

General (by Food Controller).—There was good rainfall during the week in the districts of Bangalore, Tumkur and Chitaldrug. No report has been received from the Kolar District but it is learned that there has been good rain there also. The standing crops are reported to be in good condition and sowing operations are going on briskly. The rainfall appears to have been insufficient in parts of the Mysore, Kadur and Shimoga Districts.

The markets are reported to have been fairly well supplied. Prices have not shown a tendency to go down except in Tumkur and in the Bangalore City. In Tumkur the recent rains have had the effect of bringing down the price of ragi from Rs. 92 to Rs. 82 per cart load, while in Bangalore City the price has gone down from Rs. 92 to Rs. 89.

Burma rice imports for the current month have been coming in during the week. The issue of the rice from the Provincial Grain Depot to the Municipal Depot as well as to Co-operative Societies is being continued as heretofore.

Chief Secretary to Government.

The Season and Crop Report.

READ—

1. Correspondence ending with letter No. C. Per. 148, dated the 23rd—27th March 1920, from the Revenue Commissioner in Mysore, submitting with his review * the Season and Crop Report for the year 1918-19.

2. Letter No. 8038—C. 872, dated the 13th May 1920, from the Director of Agriculture in Mysore, submitting his remarks on the above Report.

* Printed as an accompaniment.

Order No. 39-98—Stl. 22-19-10, dated 14th July 1920.

Part IV. Rainfall.—The average rainfall for 1918-19 was 30·90 inches against 41·46 inches of the previous year. From an agricultural point of view, the rainfall was not only deficient but ill-distributed.

Part I Area (Table A—1).—The total area of the State at the end of the year under report was 18,861,218 acres. Deducting the area for which no returns exist, the net area showed a decline by about 8,000 acres being 17,479,163 acres against 17,487,879 for 1917-18. The slight change in the figures was due to the revision of figures according to revision survey.

Classification of area: (*Table A—2*).—Two hundred thousand acres of reserved land were transferred from the control of the Forest Department especially in the districts of Shimoga and Kadur reducing the area under 'Forests' to that extent. Part of this land was made available for cultivation and the rest were reserved for communal purposes. The figures under "other lands not available for cultivation" and "net area available for cultivation" increased accordingly to 6,563,880 and 8,605,850 from 6,411,535 and 8,570,408 acres respectively. The adverse seasonal conditions (*vide* last paragraph *infra*) are reflected in the decline of the net cropped area by 549,729 acres or 8 per cent of the area cropped in the previous years. The area under current fallows shows a corresponding rise from 1,342,979 (1917-18) to 1,930,397 acres. The total area irrigated from all sources rose by nearly 68,000 acres to 1,069,035 acres which was nearly one-eighth of the total area available for cultivation and one-fifth of the net area cropped during the year.

Specification of crops (*Table A—3*).—Out of every 10,000 acres under cultivation 3,187 acres were cultivated with ragi, 1,269 with horse gram, 1,072 with cholum, 1,028 with rice, and 65 acres with sugar-cane, the balance being under other crops. The area under sugar-cane was only 4 per cent of the total irrigated area. Though there was an expansion under horse gram, Bengal gram, etc., the total area under food grains receded from 5,523,373 to 5,087,401 acres or nearly 8 per cent. The area under oil seeds declined by nearly 30 per cent, being 252,402 against 355,387 acres. A similar decline is noticed in condiments and spices, sugar, fibres, dyes, etc. There was a small rise in the total area of drugs and narcotics from 133,131 to 142,198 acres, due to the expansion of coffee and tobacco cultivations. The area under mulberry was 45,766 acres against 21,780 in 1917-18, increases being especially noticeable in the districts of Tumkur and Mysore. In these districts is noticeable also considerable contraction in the acreage under arecanut. The Deputy Commissioners of these districts are requested to verify the accuracy of these figures and report the result through the Revenue Commissioner.

Agricultural stock (*Table B*).—The statistics of the fourth quinquennial Census of Agricultural Stock held in January 1916 are repeated under this head.

Incidence of Land Revenue Assessment (*Table—C*).—The incidence of land revenue (on the land assessed) per head of population was Rs. 1-15-4 as against Rs. 1-14-3 of the previous year.

Holdings and holders (*Table—D*).—Government invite attention to the Revenue Commissioner's remarks under this head and trust that in future more care will be bestowed by the Deputy Commissioners in furnishing the figures for Table D.

Transfers of property (*Table—E*).—There has been an increase in the number of transfers and also in the area transferred under the Orders of the Civil and Revenue Courts.

Part II. Estimated outturn of selected crops.—The unfavourable character of the seasons resulted in abonormally low outturn of the selected crops, *viz.*, paddy, ragi, cholum, horse gram and sugar-cane, as will be seen from the following tables:—

Crops		Area under crops (acres)	Standard outturn (pallas)	Estimated actual outturn (Pallas).
1. Paddy	1917-18	818,347	7,222,591	4,438,632
	1918-19	634,456	5,122,962	2,212,265
2. Ragi	1917-18	2,317,396	10,596,624	6,375,186
	1918-19	1,966,411	8,888,431	3,006,270
3. Horse gram	1917-18	734,349	1,244,482	627,243
	1918-19	883,397	1,870,892	630,137
4. Cholum	1917-18	608,001	1,838,014	1,010,210
	1918-19	660,533	2,138,715	726,381
5. Sugar-cane	1917-18	44,328	5,217,282	3,634,091 Maunds
	1918-19	40,584	4,860,838	2,434,595

Part III (b) Wholesale prices.—The unfavourable seasonal conditions coming at a period of world shortage of food stuffs resulted in a phenomenal rise in the prices of rice, ragi, cholum and Bengal gram in all the districts of the State, and consequent suffering among the poorer classes. Throughout the year under review the local grain market had to be continuously replenished by imports from abroad organised by Government.

Part III (a) Exports and Imports by rail.—The values of imports of the chief agricultural products (by rail) were Rs. 3,20,63,259 and Rs. 3,84,98,859 respectively. The principal features of the year were the large rise in the import of rice and decrease in the exports of ragi and cholum.

General summary.—The principal features of the year's agricultural activities may be summarised as follows:—

Out of a total of 86 lakhs of acres available for cultivation, 7·6 lakhs were still unoccupied and 78·4 lakhs of acres were under occupancy. Out of these 19 lakhs of acres, *i.e.*, nearly one-fourth of the area under occupancy was fallow against one-sixth in the previous year and crops were raised only on the balance, *i.e.*, 59 lakhs of acres against 64·5 lakhs in the previous year.

The cropped area was distributed as follows:—

	Acres.
Food crops	50,00,000
Oil seeds	2,52,000
Cocoanut and arecanut	1,48,000
Drugs and narcotics (including coffee and tobacco)	1,42,000
Fibres	1,31,000
Condiments and spices	1,25,000
Fodder crops	60,000
Sugar	41,000
Others	2,70,000
Total	61,69,000 Acres (including area cropped more than once).

The estimated outturn of the principal crops was poorer than the standard outturn and the previous years' outturn to the extent noted below:—

	Standard	1917-18	1918-19
Paddy	16 annas	9·8	6·9
Ragi	16 annas	9·6	5·4
Horse gram	16 annas	8·0	5·3
Cholum	16 annas	8·7	5·4
Sugar-cane	16 annas	11·1	8·0

Though the agricultural produce was less, prices ruled very high and the increases ranged from about 50 per cent of the previous year's prices, during harvest time to 100 per cent or even more in some cases, during the months of July and August. The agricultural classes were therefore fairly compensated and the strain fell mostly on the middle classes, the urban wage earners and the Government servants and other employees deriving fixedly monthly incomes.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. 6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

No. G. 5435—San. 18-20-3, dated 7th September 1920.

The following communication No. 546, dated 16th July 1920, from the Government of India, Department of Education (Sanitary), regarding the precautionary measures against the danger of contracting anthrax from the use of infected shaving brushes, is published for general information :—

, I am directed to address you regarding the precautionary measures against the danger of contracting anthrax from the use of infected shaving brushes.

2. During the past year, several cases of anthrax due to infection contained in shaving brushes were reported. The majority of such brushes are suspected to have been made in Japan and unless arrangements can be made to exclude infected shaving brushes from the market, it is desirable to warn the public against the danger of contracting the disease from such brushes. The danger is not necessarily confined to shaving brushes, but is liable to exist in tooth brushes, nail brushes and cheap paint brushes also. The Government of India are advised that, if intending purchasers obtain an assurance that the brush offered for sale is not one of a batch imported from Japan and disinfect all doubtful brushes, especially the cheap variety, the danger would be lessened. The following method of disinfection has been suggested :—

Thoroughly wash the hair of the brush with soap and warm water to which a little washing soda has been added, rinse in warm water and the immerse overnight in a disinfecting solution consisting of either perchloride of mercury 1 in 1,000, or formal in 2 table spoon fulls to half a pint of water. After removal from the disinfecting solution, the brush should be washed and then allowed to dry before use. The disinfecting solution should initially be at a temperature slightly above the body heat and care should be taken not to allow the hairs of the brush to come in contact with the hand while under disinfection.

3. I am to request that, if there is no objection, this letter may, as an *ad interim* measure, be given as wide a publicity as possible for the benefit of the public in general. A further communication will perhaps be made to you when a decision is arrived at on the question now under consideration of prohibiting the importation into India of infected shaving and tooth brushes, etc., from other countries.

By Order,

C. S. BALASUNDARAM IYER,

Chief Secretary to Government.

Food Situation for the week ending 28th August 1920.

Brief abstract of the special reports regarding the food situation for the week ending 28th August 1920.

Bangalore City.—During the week under report, 105 carts of ragi and 18 carts of paddy came into the bazaar as against 70 carts of ragi and 9 carts of paddy in the previous week.

The price of ragi ranged from Rs. 85 to Rs. 90 per cart during the week, against Rs. 85 to Rs. 92 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The four Municipal Test Depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their depots.

Mysore City.—No change.

Bangalore District.—There were good showers all over this week. The standing crops are in good condition.

The markets are fairly well supplied, but the prices of ragi and rice continued to be high. Local rice sells at 3½ to 4¼ seers a rupee and ragi at 6¾ to 8 seers a rupee.

Burma rice is available in Government Depots and Co-operative Societies at 4½ seers a rupee.

Mysore District.—Hardly any change. Rainfall was insufficient during the week on the whole.

Jola is being harvested in the Chamrajnagar Taluk and the outturn is estimated at 12 annas.

In Malvalli one of the dry taluks the ragi crop is said to be fairly good.

Tumkur District.—In the week under report there has been rain in all the taluks of the district. Standing crops were greatly benefited. Price of ragi has slightly risen from Rs 82 to Rs. 86 per cart load, while that of paddy stands at Rs. 74 per cart-load.

Kolar District.—Rainfall is general throughout the district, except in the Bagepalli Taluk, where it is reported to be insufficient.

Agricultural operations are in progress and are being pushed on rapidly.

Standing crops such as sugar-cane, chillies, etc., are in good condition.

Markets are fairly well supplied. The demand for Burma rice is reported to be slack. No distress has been reported from any part of the district. Cooly is available for the labouring classes.

Hassan District.—There was a light fall of rain in some parts of the district during the week.

The markets were fairly supplied with food grains. Standing crops such as *kar* paddy, paddy, ragi and sugar-cane are generally in a good condition.

Prices of food grains are still high.

The prospects of the season are generally good for the present. More rain is required in the Hole-Narsipur, Arsikere, and Channarayapatna Taluks and in maidan parts of the Belur Taluk.

Shimoga District.—The food situation in the district remains almost the same.

The Amildar of Channagiri Taluk reports that large quantities of food grains are moving towards Harihar and Davangere from that taluk.

Kadur District.—Food stuffs were available in all the markets of the district in sufficient quantities, but their prices continued to rule high as usual.

There was a good shower of rain in the maidan parts of the district during the week. Sowing is in progress.

Chitaldrug District.—There was rain in all the taluks of the district during the week ranging from 37 cents to 1 inch 60 cents. This has eased the situation to some extent. The prices of food grains continue the same.

General (by Food Controller).—There was fairly good rain fall in the maidan parts of the State, but the malnad parts received no rain during the week. The rains during the past two weeks have greatly improved the season prospects.

The markets in the State are reported to be well supplied but the prices continue to rule high. The price of ragi in Tumkur has gone up from Rs. 82 to Rs. 85. In Bangalore City the prices remain steady.

The issue of Burma rice from the Provincial Grain Depot to Co-operative Societies and to individuals for domestic consumption is continued.

I have three sons by name.—

All have attained their age of majority. Of these first Veerabhadrappa *alias* Appaji has been for a short time back taking meals in my brother Shamanna's house. All the movable and immovable properties, I own are myself acquired properties. Some times documents showing myself acquisition have been made to stand in the name of my first son Veerabhadrappa *alias* Appaji. All the properties and the existing debts appertain to the joint family. I learn that my first son has been trying to alienate some of the properties on the strength of the document standing in his name. Though he cannot do so by himself alone. I hereby warn all persons against having dealings with my first son alone with respect to the family properties.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, I-A, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2-4-0 per annum will have Parts I, I-A, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 4th September 1920.

Brief abstract of the special reports regarding the food situation for the week ending 4th September 1920.

Bangalore City.—During the week under report, 127 carts of ragi and 22 carts of paddy came into the bazaar as against 105 carts of ragi and 18 carts of paddy in the previous week.

The price of ragi ranged from Rs. 84 to Rs. 88 per cart during the week, against Rs. 85 to Rs. 90 per cart in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The four Test Depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their depots.

Mysore City.—Report not received.

Bangalore District.—The rainfall during this week was on the whole scanty, except at Nelamangala, Anekal and Closepet where it was sufficient.

More rain is wanted all over the district.

Sowing of horse gram is going on and the raiyats are busily engaged in harrowing and weeding operations.

Standing crops are reported to be fairly in good condition.

There was a demand for takavi loans for seed ragi in the Hoskote Taluk, which has been met.

The markets are fairly well supplied, but the prices continue high. Local rice sells at 3½ to 4½ seers a rupee and ragi at 6¼ to 8 seers a rupee.

Burma rice is available in Government Depots and Co-operative Societies at 4½ seers a rupee.

Mysore District.—No change as regards food of which plenty is available at the usual high prices. There has been fairly good rain in the taluks of Malvalli, Chamrajnagar, French Rocks, Mandya and Seringapatam.

There have been slight rains in Mysore, Gundlupet and T.-Narsipur.

More rain is required.

Crops are fairly good on the whole, and very good in some places. The jola crop harvested in Chamrajnagar is exceptionally good.

Tumkur District.—There has been no change in the food situation in the district during the week. More rain is wanted in Tiptur and Sira Taluks. Prices continue to be high as in the previous week.

Kolar District.—The situation is unchanged.

Hassan District.—There was a slight rainfall in some parts of the district during the week.

The markets were fairly supplied with food grains. Standing crops are generally in a good condition. There was pretty good rainfall in almost all parts of the Arsikere Taluk during the week.

Prices of food grains continue to be high. Price of horse gram shows a tendency to rise in the Hole-Narsipur Taluk.

The prospects of the season are generally good for the present. More rain is urgently required in the Hassan, Arsikere, Hole-Narsipur and Channarayapatna Taluks and in the maidan parts of Belur Taluk.

Shimoga District.—The food situation remains the same as in the previous week.

The stock of Burma rice is practically exhausted in the District Depot and as the situation in the maidan taluks is reported to be far from satisfactory, an indent for 200 bags of Burma rice has been sent.

Kadur District.—Food stuffs were available in all the markets of the district, but the prices rule high as usual.

Rain is wanted in the the maidan parts of Chikmagalur Taluk and in the Kadur Taluk and also in the Narasimharajapura Sub-Taluk.

Chitaldrug District.—There was not much rain during the week.

Fodder-scarcity in the taluks of Hiriyur, Challakere and Molakalmuru is being keenly felt. The prices of food grains continue the same. Heavy rains are urgently required.

General (by Food Controller).—The rainfall during the week was scanty and more rain is required in almost all parts of the State.

Markets are reported to be fairly well supplied. Prices of rice and ragi are steady.

The issue of Burma rice from the Provincial Grain Depot to Co-operative Societies and in limited quantities to individuals for domestic consumption is being continued. The sale of Burma rice in the four Municipal Test Depots in Bangalore City is being continued. Some merchants have come forward to take up portions of the Burma rice to be imported in September.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Revision of Assessment.

READ—

Government Order No. 6820-32—R. 1193, dated 22nd March 1880, sanctioning the original settlement of 444 villages of the late Lakvalli Taluk.

2. Letter No. 74, dated 27th September 1919, from the Superintendent, Revenue Survey and Settlements in Mysore, submitting proposals for the resettlement of 106 villages (including three new villages since formed) referred to in the order read above (printed as accompaniment).

3. Correspondence ending with letter No. 10, dated 12th July 1920, from the same officer, forwarding certain objection petitions presented by the concerned raiyats in respect of the revised rates proposed by him and recommending that as the said objections are not based on valid grounds, the revised rates proposed by him, which have been agreed to by the Revenue Commissioner and Deputy Commissioner, Kadur District, may be sanctioned.

ORDER No. R. 3564-75—L. S. 21-19-6, DATED BANGALORE, 11TH SEPTEMBER 1920.

The proposals relate to the revision of the assessment of 106 villages which are distributed as follows :—

55 villages in Narasimharajapura Sub-Taluk.
30 ,, in Tarikere Taluk.
14 ,, in Chikmagalur Taluk.
7 ,, in Shimoga Taluk.

106

2. The tract covers an area of 490 square miles and is mostly malnad in nature, being made up of numerous hills and large forests. The climate is healthy in the open tracts, the hilly portions being unhealthy. The average rainfall varies from 66 to 43 inches, the heaviest being recorded in the Jagur valley, which is notoriously unhealthy. The soil is generally poor.

3. The Tunga and the Bhadra rivers with numerous other hill streams form the chief source of water supply, though much benefit is not derived from them as the rivers are not perennial and flow on low beds. There are only 611 major and 611 minor tanks most of which are unrestored.

4. Rice and sugar-cane of an inferior quality are the principal wet crops while there is very little dry cultivation. The gardens are said to be of an inferior kind, the principal crop raised being areca, plantains, cardamom and other spices. Coffee is also cultivated in the taluk from very early times and extends over 25,664 acres, the plantations of the Jagar valley being reported to be of the best kind.

5. The taluk is fairly well off in point of roads. Four new important roads having been added to the two old ones existing at the time of the original settlement. Additional facilities have been afforded by the opening of the Tarikere-Narasimharajapura Tramway which has thrown open the whole tract except the Jagar valley.

6. The population has been almost normal since the original settlement, being 22,457 in 1,871 and 22,513 in 1911.

7. Since the original settlement there has been a steady improvement in the Agricultural resources of the taluk as noted in the margin. The value of land has risen while the prices of food grains also have gone up appreciably the increases being 75 per cent in the price of rice, 25 per cent in ragi and 122 per cent in the case of supari. The Revenue history of the taluk has also been satisfactory during the current settlement. The area under occupation has increased by 3,492 acres or about 18 per cent.

	Increase
Houses	39 per cent
Cattle	5 ,,
Carts	198 ,,
Ploughs	21 ,,

8. The Survey Superintendent proposes to revise the existing rates as shown below, keeping intact the original grouping of the villages into four classes with a slight difference in the grouping of wet and dry lands.—

Land		Maximum rate per acre		Average rate per acre	
		Original	Revised	Original	Revised
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Wet group	I	5 4 0	5 12 0	2 7 11	2 11 6
	II	4 12 0	5 4 0	2 4 11	2 8 10
	III	4 4 0	4 12 0	2 0 9	2 4 8
	IV	3 12 0	4 0 0	2 5 5	2 7 11
Dry	I	1 4 0	1 8 0	0 9 7	0 11 6
	II	1 0 0	1 4 0	0 6 8	0 8 7
	III	0 12 0	1 0 0	0 3 2	0 3 2
	IV	0 8 0	0 8 0	0 3 1	0 3 1
Garden	I	16 0 0	12 0 0	7 11 0	6 12 4
	II	16 0 0	12 0 0	10 0 2	9 0 4
	III	14 0 0	12 0 0	9 6 5	9 5 0
	IV	14 0 0	12 0 0	4 0 0	2 1 9
		General average.		2 2 3	2 5 4

The above proposals involve an increase of Re. 0-3-1 in the general average rate per acre and are estimated to result in the aggregate in an increase of Rs. 5,596 or 11·21 per cent over the present annual revenue.

9. The Revenue Commissioner and the Deputy Commissioner, Kadur District are agreeable to the moderate increases proposed by the Survey Superintendent. In response to the procedure of notifying the revised rates in the areas concerned, prescribed in Government Order No. R. 5791-800—L. S. 7-18-11, dated 18th November 1919, the raiyats of Vagade Kanur, and Hunasahalli and one or two other villages in the Kadur District, have objected to the increase in the rates on the ground of poor yield, want of road facilities, insufficient rainfall, etc. The above reasons are of too general a nature to receive any detailed consideration. The moderate character of the revised rates is borne out by the fact that only about six out of 106 villages have had any objections to urge in the matter. The rates now proposed by the Survey Superintendent are moderate; they compare favourably with those prevailing in the adjoining tracts, and are also fully justified by the material prosperity of the taluk under the several heads detailed above during the currency of the present settlement. Government are accordingly pleased to sanction the Survey Superintendent's proposals in their entirity.

10. The revised rates will be announced as soon as possible and brought into force from the year 1921-22 with the usual guarantee of thirty years.

ORDER No. G. 6045-105—G. M. 194-17-8, DATED 14TH SEPTEMBER 1920

In Government Order No. 695-734—G. M. 180-07, dated 30th July 1908, th ment issued certain instructions in regard to the care of monuments and other antiquarian or archæological interest in the State and defined the responsibility of t Commissioners, Public Works Officers and of the Director of Archæology in th These instructions are mainly based on the provisions of Article 314 of the Gover India Public Works Code and prescribe in general terms the responsibility for th monuments. The necessity for devoting greater attention to the preservation o monuments, for ensuring their systematic inspection and for preventing wanton n some cases, has been engaging the attention of Government for some time pa Committee appointed to consider and report on the measures necessary in this b submitted a list of 163 monuments, the conservation of which calls for special arran The Committee has urged also the desirability of enacting a law correspondin

Monuments Preservation Act No. 7 of 1904

2. An analysis of the list submitted by the Committee shows that out of the 163 ments enumerated by them, 91 are Muzrai institutions at present in service and under ontrol of the Muzrai Department, and that only 19 of them have sufficient funds of their for their up-keep in good order. Twenty monuments of which 7 are Muzrai institu- in service are being maintained by the Public Works Department. Fifty-nine monu- s are neither Muzrai institutions nor are they maintained by the Public Works Depart- t. Of these two namely Sir P. N. Krishna Murti's Bungalow at Seringapatam and the a Shankara temple at Sringeri are private property. The lists received from the uty Commissioners of Districts show, however, that there are a number of other privately ed temples, buildings and inscriptions not included in the Committee's list. It is pro- that as a result of further exploration by the Archæological Department, some additions have to be made to the list. In the interests of all classes of monuments, therefore, the tment of a special law on the lines of the Indian Act is desirable and necessary steps efor will be taken in this respect in the Legislative Department.

3. The Director of Archæology is requested to classify in consultation with the Deputy missioners, where necessary the 163 monuments mentioned in the list appended to this r on the lines indicated in the Government of India Resolution No. 48, dated 21st uary 1919, that is, as follows :—

I. Those monuments which from their present condition and historical or archæological value ought to be maintained in permanent good repair.

II. Those monuments which it is now only possible or desirable to save from further decay by such minor measures as the eradication of vegetation, the exclusion of water from the wells and the like.

III. Those monuments which from their advanced stage of decay or comparative unimportance it is impossible or unnecessary to preserve.

The monuments should also be classified into those which must be annually inspected by officer of the Archæological Department and those which need be inspected by such officer y once in five years. A list of the monuments showing this combined classification should submitted to Government before the 30th November 1920.

4. The Director of Archæology will be responsible as heretofore for exploration and cavation of sites of archæological interest. Deputy Commissioners of Districts and all her officers who come across articles, etc., of archæological or antiquarian interest, not cluded in the standard list, are requested to communicate their finds promptly to the rector. The Director will then submit to Government his recommendations as to their ditions to the list, arrangements for maintenance, etc.

5. The work to be done in respect of monuments falls under the following heads :—

(1) Protection from (*a*) wanton or ignorant demolition or (*b*) traffic in and sale of images and other works of antiquarian interest removed from such monuments ;

(2) Conservation from decay ;

(3) Restoration or special repairs including reconstruction of demolished portions or resetting of dilapidated portions in their original setting ; and

(4) Periodical Inspection.

(i) Of these, protection requires legislative powers and as soon as the Regulation lready referred to is passed, the Deputy Commissioners will be held responsible to enforce he law in this behalf.

(ii) Conservation, *i.e.*, *the ordinary maintenance* and annual repairs of a minor nature, will be attended to by the local Muzrai authorities, in respect of all Muzrai institutions where service is being conducted, and by the local revenue authorities in all other cases. In the case of monuments of special importance and value which are not Muzrai institutions in service whole-time care-takers may be employed by the Deputy Commissioners, with the concurrence of the Director of Archæology.

Kolar	75
Tumkur	100
Mysore	250
Hassan	200
Shimoga	150

In every case, the local officers should confine their activities purely to keeping the buildings and premises clean and in good repair and free from rank vegetation, protecting them from the effects of the wind, sun and rain, the ravages of rodents, white ants, etc. In respect of these annual repairs, care should be taken not to interfere with the æsthetic or any special

maintenance of monuments which are not Muzrai institutions. In the case of Muzrai institutions in service, the expenditure on ordinary maintenance and annual repairs should be met from the funds of the institutions themselves.

(iii) Whenever any special repairs on a large scale are necessary or any construction or alteration whatsoever is involved or a partial or wholesale restoration is proposed, the Muzrai Assistant Engineer in the case of Muzrai institutions, or the local Public Works Sub-Division Officer in the case of others, will prepare an estimate in consultation with the Archæological Draftsman, and after a joint inspection of the spot, so that the new work may not detract from the special historic or artistic features of the building and also be in consonance with the general design and spirit of the monument. The estimate thus prepared should, after scrutiny by the Superior Officers of the Public Works Department and by the Deputy Commissioner, or Muzrai Superintendent as the case may be, be sent to the Director of Archæology for counter-signature and submission to Government in the General Department for administrative sanction and allotment of funds out of the special grant referred to below. No such work should be put in hand without the sanction of Government in the General Department. In cases of emergency, however, where owing to an accident or other unforseen causes, some work is immediately necessary to prevent a building from further deterioration, the Executive Engineer of the Division should visit the spot with the Director of Archæology and arrange for the immediate execution of the temporary work. The cost of conservation and maintenance of Muzrai institutions in service should be met from the funds of the institutions or from the provincial Muzrai grant.

(iv) Government will make provision from time to time for the cost of special repairs to monuments which are not Muzrai Institutions in service and for special watch and ward establishments, if any, when such repairs or establishment are sanctioned.

(v) The Revenue Sub-Division Officers will be responsible for inspecting all the monuments within their jurisdiction once a year and submitting a report of inspection in respect of each institution to the Deputy Commissioner for scrutiny and transmission to the Director of Archæology. The Director of Archæology, his assistant, or the Archæological Draftsman, should also inspect annually each of the monuments selected for annual inspection and should also inspect at least one-fifth the number of the monuments listed for quinquennial inspection. A programme of such inspections should be prepared in advance and submitted to Government for information and record in June every year. The results of the inspection should be communicated to the Deputy Commissioner within one month of the visit. The Director of Archæology is requested to suggest two forms, one for use during such inspections by the Revenue Sub-Division Officers and another for use by Archæological Officers.

6. Government note that the two private monuments are in the custody of the two premier Jahgirdars in the State and they have no doubt that they will make all the necessary arrangements for the satisfactory preservation of these and other monuments in their possession. The Director of Archæology is requested to inspect these monuments once a year in consultation with the Jahgirdars and to give them all necessary expert advice in regard to their maintenance, repairs, etc.

7. An account of the work turned out in pursuance of this order should be sent by each Deputy Commissioner, annually, before the 31st August to the Director of Archæology who will consolidate and incorporate them in the Annual Archæological Report.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday noon, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript. If spare copies exceeding 100 in number are required, the department concerned should supply the required quantity of paper.

3. Matter sent for insertion in the Gazette will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. The English or the Kanarese portion of the *Mysore Gazette*, consisting of Parts I, I-A, II, III and V only, will be supplied to the Members of the Representative Assembly during their tenure of office as such Members, Shanbhogs, Patels, Nad Patels and Shekdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time. Such subscribers will please note that the Gazette cannot be had *in separate Parts* at concession rates. Those who pay Rs. 2-4-0 per annum will have Parts I, I-A, II, III and V only and those who require the other Parts will have to pay the *full* subscription fixed for the Part or Parts wanted; but those who pay Rs. 4 will get the entire copy of the Gazette.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

10. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

OFFICIAL PAPERS.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Food Situation for the week ending 18th September 1920.

Brief abstract of the special reports regarding the food situation for the week ending 18th September 1920.

Bangalore City.—During the week under report, 95 carts of ragi and 15 carts of paddy came into the bazaar as against 120 carts of ragi and 16 carts of paddy in the previous week.

The price of ragi remained the same as in the previous week.

There is sufficient stock of rice and ragi in the bazaar for consumers.

The four Municipal Test Depots are selling Rangoon rice to the poor. The importers are also selling rice to the public at their depots.

Mysore City.—No change.

Bangalore District.—There was rain during the whole week throughout the district.

Sowing of horse gram, harrowing and weeding are going on. Standing crops are in good condition and much of the raiyat's anxiety for his dry crop is allayed.

The markets are fairly well supplied, but the prices of ragi, rice and Burma rice continue as before.

Mysore District.—There were good rains almost throughout the district during the week, especially in those parts where rain had been scanty before.

Agricultural prospects have improved.

Markets well supplied. Prices continued as before.

Tumkur District.—There were good showers of rain in all the taluks of the district. Prices of food grains continue to be high. Supplies to markets are adequate and Government rice depot exists only at Gubbi.

Kolar District.—The rainfall which is general and timely throughout the district has considerably improved the situation. With more timely rains the dry crops are sure to thrive.

As regards prices there is no preceptible change in the situation.

Hassan District.—There was a good fall of rain throughout the district during the week.

The markets were fairly well supplied with food grains. Standing crops are in a good condition.

Prices of food grains continue to be high.

The prospects of the season are generally good for the present. More rain is needed for the paddy crop in the Hassan Taluk and for the dry crops in the Arkalgud Taluk.

Shimoga District.—There has been no material change in the food situation in the district.

There was slight showers during the week which helped to some extent the standing crops, which would otherwise have withered in many places. Honnali in particular had good enough showers.

Prices continue to be as high as before.

Kadur District.—Food stuffs were available in all the markets of the district in sufficient quantities to meet the local demand. But the prices were as usual high.

There were good showers in all the parts of the district; and in the Kadur Taluk especially, the condition of the withering crops has been greatly improved by the recent rains.

Chitaldrug District.—Owing to the fall of good showers throughout the district, the seasonal conditions have improved but the prices of food grains remain unaltered.

General (by Food Controller).—There has been good rainfall all over the State which has materially improved the condition of the standing crops. The maidan parts of the State still require some more rain.

Supplies to markets are reported to have been sufficient. Prices however continue high as before.

The demand for Burma rice in the districts is very slack but continues in the Bangalore City, the Civil and Military Station and the Kolar Gold Field. Issue of Burma rice from the Provincial Grain Depot as heretofore and the sale of it in the four Test Depots maintained by the Bangalore City Municipality continue.

READ—

Government Order No. R. 2165-74—L. R. 419-10-4, dated 18th October 1912, accepting the Revenue Commissioner's recommendation to lease the two items, honge seeds and honge leaves together to one and the same person as an experimental measure, the then existing seigniorage of Rs. 1-12-0 per 100 trees, being slightly raised at the Deputy Commissioner's discretion.

2. Government Order No. R. 7588-96—L. R. 434-14-4, dated 19th January 1917, approving of the Revenue Commissioner's recommendation to lease the right to collect the said two items to one and the same person at Rs. 1-12-0 per 100 trees, preference being shown to local raiyats.

3. Government Order No. R. 972-81—L. R. 488-17-2, dated 15th July 1918, directing that the system of leasing out the leaves and seeds of honge trees on Government lands in accordance with the above orders be continued permanently.

4. Paragraph 6 of Government Order No. R. 12161-71—Ft. 143-16-6, dated 22nd March 1919, directing that among other matters, the sales of minor forest produce require the confirmation of the Conservator of Forests in Mysore (and not the Deputy Commissioner as hitherto) when the value exceeds Rs. 500 in each case, the District Forest Officer himself passing final orders in other cases.

5. Government Order No. R. 2780-2—Ft. 221-17-4, dated 26th August 1919, stating that among other matters that as honge leaves and seeds are sold annually by the Revenue Department at Rs. 1-12-0 per 100 trees, no further concession in the matter of the removal of leaves for cattle and manure is called for in the matter.

6. Letter No. 3259, dated 25th February 1920, from the Revenue Commissioner in Mysore forwarding the report of the Deputy Commissioner, Chitaldrug District, in the matter of the complaint of certain raiyats of the Molakalmuru Taluk that the Forest Department has sold the lease of the right to collect the honge leaves and seeds to the detriment of the requirements of the raiyats, and requesting that the lease may be modified by excluding the same from the list of minor forest produce, in the interests of the raiyat population, the power to sell the same being vested in the Revenue Department.

7. Letter No. 16, dated, 22nd July 1920, from the Conservator of Forests stating that the orders on the subject do not definitely require the Revenue Department to conduct the sales, that in the case in point, the leaves and seeds were sold to one and the same person as a separate item without including them in the minor forest produce, that there was nothing to prevent the raiyats to bid for and purchase the right to collect the items, and that the action of the District Forest Officer is in accord with the orders of Government.

ORDER No. R. 3938-47—FT. 176-19-4, DATED BANGALORE, 18TH SEPTEMBER 1920.

Government consider that it is desirable in the interests of the agricultural population to exclude both *honge* seeds and leaves from the category of minor forest produce, and are pleased to direct that they should be sold in future as an independent item by the Forest Department preferably to raiyats.
